What are the expectations of the student for this online learning pathway?

1- Student will:

- a) be a self-starter who seeks independent navigation through high school.
- b) engage in the virtual instruction
- c) take e-notes/paper notes
- d) complete assignments as presented online
- e) successfully complete **unlocked** 10 question quiz.

2- Quizzes have a district set 70% threshold to permit pass to next lesson.

- b) If student does not pass with the three allowed quiz attempts, teacher contact is necessary to proceed. (Email teacher immediately)

3- Topic Test Review assignment (which **is** averaged in the grade with **NO** threshold) must be completed to a satisfactory grade for student progression to the Unit/Topic

Test. When you email for an “unlock,” your teacher **WILL BE** reviewing your work for understanding.

4- Unit/Topic Tests are **Locked for Teacher Review**

- a) At this point, the student is reviewed by the teacher for concept understanding and success of unit work i.e. assigns, short responses, quizzes, test review assignment.
- b) **IF** teacher review reveals quality work and understanding, then Test is unlocked.
- c) **NOTE:** Student will be required to be **actively online** at the time of the test unlock as it will expire and re-lock within 10 minutes, if not started. (Email teacher for this test unlock)

How much should students complete daily?

1- Students will be able to access a calendar within Edgenuity class that will designate the amount needed daily to finish by the target date. **Online Academy students are expected to be working 5 hours daily/25 hours weekly.**

2- Start date and End date will be specified to accurately track progress of course completion.

3- Other than times where the student and the teacher are communicating for TESTING, students are free to continue independently at any hour day or night.

4- When student has multiple online classes to complete, each day at home needs to model the timeline of a school day with juggling all needed work as specified in the course calendar on Edgenuity class(es)

5- Parents should familiarize themselves with their student’s account to view the daily updates with their student to develop daily/weekly collaborated goals.
