

Mr. Stafford

217-228-7175 ext. 2304

staffoda@qps.org

GOAL:

The goal will always be to complete classes, especially for our High Schoolers who are earning credits. My goal for students will always be to assist them with graduation or returning to their home school. Students will complete courses given to them on Edgenuity by administration. Students can access the actual course syllabus for each course on Edge, shown in class.

CURRICULUM:

Curriculum will be provided by Edgenuity. Edgenuity is the Teacher; Mr. Stafford is the FASCILITATOR.

GENERAL EXPECTATIONS:

Students will be expected to participate for daily points in our hourly connect time. This takes place in the first 10 minutes of each class. Students will then check in with the teacher to start their Edgenuity course work. Students will be encouraged to take notes using guided notes, a notebook, or digital notes. Students need to watch and listen to videos in their lesson, or they may use CC and take notes while music is playing in the classroom. Students should use regulation time to take a break from Edge but must return to work after 5 minutes. While working on quizzes, tests, and exams, students may use their notes for assistance.

STRUCTURE:

Students will be scheduled to work on a specific class each hour assigned to them. Students will work at their own pace on Edgenuity courses but will have a minimum amount they must complete every hour, usually 2-3% of the course an hour. Students have 5 total hours in their day and have 5 classes to complete for each quarter of the school year. They will have access to a course syllabus for each Edge course and will conference regularly with the teacher to monitor progress and receive additional support.
